Driver Profile Da		Data Definition	Data Type	Field Length	Mandatory / Optional
Proposer/Policyholder Proposer/Policyholder Proposer/Policyholder	Title First Name	Title of proposer or policyholder First Name of proposer or policyholder (initials are not permitted) if the contract is required in an individual's name	Single Instance Ob List Text		Optional Mandatory
Proposer/Policyholder Proposer/Policyholder Proposer/Policyholder	Second Name or Initial Surname Address 1	Second name of proposer/policyholder if the contract is required in an individual's name Surname of proposer/policyholder if the contract is required in an individual's name Postal address		15 70	Optional Mandatory Mandatory
Proposer/Policyholder Proposer/Policyholder	Address 2 Address 3	Postal address Postal address	Text Text	40 40	Mandatory Optional
Proposer/Policyholder Proposer/Policyholder Proposer/Policyholder	Address 4 Address 5 Address 6	Postal address Postal address	Text	40	Optional Optional Optional
Proposer/Policyholder Proposer/Policyholder Current Vehicle Details	Postcode Contact telephone number		Text Single Instance Ob	8 12	Mandatory Optional
Current Vehicle Details Current Vehicle Details	Vehicle Make & Model	The make and model of the vehicle	Text List	7 8	Mandatory Mandatory
Claims History		The VIN of the vehicle Records the date of a claim or loss that occurred	Numeric Repeating Object Date		Optional Optional
Driver Profile / History	Start date		Single Instance Ob Date Date	ject 8	Mandatory Mandatory
Driver Profile / History Driver Profile / History	Total Distance Driven (Miles) Total Duration Operated	The total distance of driving that applies to the driver profile The total elapsed duration of recorded information from what driver profile is derived from	Numeric hh:mm:ss	6 6	Mandatory Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History		If available, the distance of driving that in the last 12 months that applies to the driver profile The average monthy distance of driving that applies to the driver profile (based on rolling 12 months) The percentage of driving stationary	Decimal Decimal	5	Optional Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving time Number of days with zero trips	The percentage of driving non-stationary The number of days where no trips have occurred	Decimal Numeric Numeric	3	Optional Optional Optional
Driver Profile / History Driver Profile / History	Number of days with non-zero trips Top 1 postcode sector visited Top 2 postcode sector visited	The number of days where at least one trip has occurred The most frequently visited location The 2nd most frequently visited location	Postcode Postcode		Optional Optional
Driver Profile / History Driver Profile / History	Top 3 postcode sector visited No. of Journeys of Trip Distances < 2 miles	The 3rd most frequently visited location The number of journeys that fall within this distance category	Postcode Numeric	5	Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	No. of Journeys of Trip Distances 2 to 9 miles No. of Journeys of Trip Distances 10 to 19 miles No. of Journeys of Trip Distances 20 to 49 miles	The number of journeys that fall within this distance category The number of journeys that fall within this distance category The number of journeys that fall within this distance category	Numeric Numeric Numeric	5	Optional Optional Optional
Driver Profile / History Driver Profile / History	No. of Journeys of Trip Distances > 50 miles Percent of driving between 00:00 and 00:59 times	The number of journeys that fall within this distance category The percentage of driving that applies for this time range	Numeric Decimal	3	Optional Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving between 01:00 and 01:59 times Percent of driving between 02:00 and 02:59 times Percent of driving between 03:00 and 03:59 times	The percentage of driving that applies for this time range The percentage of driving that applies for this time range The percentage of driving that applies for this time range	Decimal Decimal Decimal	3	Mandatory Mandatory Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving between 04:00 and 04:59 times Percent of driving between 05:00 and 05:59 times Percent of driving between 05:00 and 05:59 times Percent of driving between 06:00 and 06:59 times	The percentage of driving that applies for this time range The percentage of driving that applies for this time range	Decimal Decimal Decimal	3	Mandatory Mandatory Mandatory Mandatory
Driver Profile / History Driver Profile / History	Percent of driving between 07:00 and 07:59 times Percent of driving between 08:00 and 08:59 times	The percentage of driving that applies for this time range The percentage of driving that applies for this time range The percentage of driving that applies for this time range	Decimal Decimal	3	Mandatory Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving between 09:00 and 09:59 times Percent of driving between 10:00 and 10:59 times Percent of driving between 11:00 and 11:59 times	The percentage of driving that apolies for this time range The percentage of driving that applies for this time range The percentage of driving that applies for this time range	Decimal Decimal Decimal	3	Mandatory Mandatory Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving between 12:00 and 12:59 times Percent of driving between 13:00 and 13:59 times	The percentage of driving that applies for this time range The percentage of driving that applies for this time range	Decimal Decimal Decimal	3	Mandatory Mandatory Mandatory
Driver Profile / History Driver Profile / History	Percent of driving between 14:00 and 14:59 times Percent of driving between 15:00 and 15:59 times Percent of driving between 16:00 and 16:59 times	The percentage of driving that apolies for this time range The percentage of driving that apolies for this time range The percentage of driving that applies for this time range	Decimal Decimal	3	Mandatory Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving between 17:00 and 17:59 times Percent of driving between 18:00 and 18:59 times Percent of driving between 19:00 and 19:59 times	The percentage of driving that applies for this time range The percentage of driving that applies for this time range The percentage of driving that applies for this time range	Decimal Decimal Decimal	3	Mandatory Mandatory Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving between 20:00 and 20:59 times Percent of driving between 21:00 and 21:59 times Percent of driving between 22:00 and 22:59 times	The percentage of driving that applies for this time range The percentage of driving that applies for this time range The percentage of driving that applies for this time range	Decimal Decimal	3	Mandatory Mandatory Mandatory
Driver Profile / History	Percent of driving between 23:00 and 23:59 times	The percentage of driving that applies for this time range The percentage of driving that applies for this time range The highest speed driven within this road type/speed limit (Moh)	Decimal Decimal Numeric	3	Mandatory Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Highest speed driven within 40mph limit road types Highest speed driven within 50mph limit road types Highest speed driven within 60mph limit road types	The highest speed driven within this road type/speed limit (Mph) The highest speed driven within this road type/speed limit (Mph) The highest speed driven within this road type/speed limit (Mph)	Numeric Numeric Numeric	3	Optional Optional Optional
Driver Profile / History Driver Profile / History	Highest speed driven within 70mph limit road types Highest speed driven within Unclassified road types	The highest speed driven within this road type/speed limit (Mph) The highest speed driven within this road type/speed limit (Mph)	Numeric Numeric		Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Highest speed driven within B road types Highest speed driven within Single Carriageway A Road types Highest speed driven within Dual Carriageway A Road types	The hishest speed driven within this road type/speed limit (Mph). The highest speed driven within this road type/speed limit (Mph) The highest speed driven within this road type/speed limit (Mph)	Numeric Numeric Numeric	3	Optional Optional Optional
Driver Profile / History Driver Profile / History	Highest speed driven within Motorway road types Percent of driving within speed limits of up to 30mph	The highest speed driven within this road type/speed limit (Mph) The percentage of driving that applies for this road type/speed limitby time. (Mph)	Numeric Decimal	5	Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving in 40mph limit road types Percent of driving in 50mph limit road types Percent of driving in 60mph limit road types	The percentage of driving that applies for this road type/speed limit by time (Mph) The percentage of driving that applies for this road type/speed limit by time (Mph) The percentage of driving that applies for this road type/speed limit by time (Mph)	Decimal Decimal Decimal	5 5	Optional Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving in 70mph limit road types Percent of driving in Unclassified road types Percent of driving in B road types	The percentage of driving that applies for this road type/speed limit by time (Mph) The percentage of driving that applies for this road type/speed limit by time (Mph) The percentage of driving that applies for this road type/speed limit by time (Mph)	Decimal Decimal Decimal	5	Optional Optional Optional
Driver Profile / History Driver Profile / History	Percent of driving in Single Carriageway A Road types Percent of driving in Dual Carriageway A Road types	The percentage of driving that applies for this road type/speed limit by time (Mph) The percentage of driving that applies for this road type/speed limit by time (Mph)	Decimal Decimal	5	Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percent of driving in Motorway road types Percentage of driving up to 10mph Percentage of driving between 10 - 20 mph	The percentage of driving that applies for this road type/speed limit by time (Mph) The percentage of driving in this category by time (excluding stationary duration) The percentage of driving in this category by time	Numeric Numeric	3	Optional Mandatory Mandatory
Driver Profile / History Driver Profile / History	Percentage of driving between 20 - 30 mph Percentage of driving between 30 - 40 mph	The percentage of driving in this category by time The percentage of driving in this category by time	Numeric Numeric	3	Mandatory Mandatory Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History	Percentage of driving between 40 - 50 moh Percentage of driving between 50 - 60 moh Percentage of driving between 60 - 70 mph	The percentage of driving in this category by time The percentage of driving in this category by time The percentage of driving in this category by time	Numeric Numeric Numeric	3	Mandatory Mandatory
Driver Profile / History Driver Profile / History Driver Profile / History	Percentage of driving between 70 - 80 mph Percentage of driving between 80 - 90 mph Percentage of driving between 90 - 100 mph	The percentage of driving in this category by time The percentage of driving in this category by time The percentage of driving in this category by time	Numeric Numeric Numeric	3	Mandatory Mandatory Mandatory
Driver Profile / History	Percentage of driving greater than 100 mph	The percentage of driving in this category by time	Numeric Numeric	3	Mandatory Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percentage of driving 110% - 115% of speed limits up to 30mph Percentage of driving 115% - 120% of speed limits up to 30mph Percentage of driving reater than 120% of speed limits up to 30mph	The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time	Numeric Numeric Numeric	3	Optional Optional Optional
Driver Profile / History Driver Profile / History	Percentage of driving 110% - 115% of 40mph speed limits Percentage of driving 115% - 120% of 40mph speed limits	The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time	Numeric Numeric	3	Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percentage of driving greater than 120% of 40mph speed limits Percentage of driving 110% - 115% of 50mph speed limits Percentage of driving 111% - 120% of 50mph speed limits	The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time	Numeric Numeric Numeric	3	Optional Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percentage of driving 110% - 115% of 60mph speed limits	The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time	Numeric Numeric Numeric	3	Optional Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percentage of driving greater than 120% of 60mph speed limits Percentage of driving 110% - 115% of 70mph speed limits	The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time	Numeric Numeric		Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	Percentage of driving 115% - 120% of 70mph speed limits Percentage of driving greater than 120% of 70mph speed limits No. of occasions Hard Acceleration Threshold 1 exceeded (but less than Threshold 2)	The percentage of excessive speed spent in this category by time The percentage of excessive speed spent in this category by time The number of instances that applies to this Acceleration Threshold	Numeric Numeric Numeric	3	Optional Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	No. of occasions Hard Acceleration Threshold 2 exceeded (but less than Threshold 3) No. of occasions Hard Acceleration Threshold 3 exceeded (but less than Threshold 4) No. of occasions Hard Acceleration Threshold 4 exceeded (but less than Threshold 5)	The number of instances that apolies to this Acceleration Threshold The number of instances that apolies to this Acceleration Threshold The number of instances that apolies to this Acceleration Threshold The number of instances that apolies to this Acceleration Threshold	Numeric Numeric Numeric		Optional Optional Optional
Driver Profile / History Driver Profile / History	No. of occasions Hard Acceleration Threshold 2 exceeded tool tess than Threshold 3 No. of occasions Hard Acceleration Threshold 5 exceeded No. of occasions Hard Deceleration Threshold 1 exceeded (but less than Threshold 3) No. of occasions Hard Deceleration Threshold 2 exceeded (but less than Threshold 3)	The number of instances that apolles to this Acceleration Threshold The number of instances that apolles to this Acceleration Threshold The number of instances that apolles to this Deceleration Threshold The number of instances that apolles to this Deceleration Threshold The number of instances that apolles to this Deceleration Threshold	Numeric Numeric	5	Optional Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	No. of occasions Hard Deceleration Threshold 3 exceeded (but less than Threshold 4) No. of occasions Hard Deceleration Threshold 4 exceeded (but less than Threshold 5)	The number of instances that applies to this Deceleration Threshold The number of instances that applies to this Deceleration Threshold	Numeric Numeric Numeric	5 5	Optional Optional
Driver Profile / History Driver Profile / History Driver Profile / History	No. of occasions Hard Deceleration Threshold 5 exceeded No. of occasions Hard Cornering Threshold 1 exceeded (but less than Threshold 2) No. of occasions Hard Cornering Threshold 2 exceeded (but less than Threshold 3)	The number of instances that applies to this Deceleration Threshold The number of instances that applies to this Cornering Threshold The number of instances that applies to this Cornering Threshold	Numeric Numeric Numeric	5 5	Optional Optional Optional
	No. of occasions Hard Cornering Threshold 3 exceeded (but less than Threshold 4) No. of occasions Hard Cornering Threshold 4 exceeded (but less than Threshold 5) No. of occasions Hard Cornering Threshold 5 exceeded	The number of instances that applies to this Cornering Threshold The number of instances that applies to this Cornering Threshold The number of instances that applies to this Cornering Threshold	Numeric Numeric Numeric	5	Optional Optional Optional
Driver Profile / Parameter Driver Profile / Parameter			Single Instance Ob Numeric Numeric	ject 3	Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided)
Driver Profile / Parameter Driver Profile / Parameter	Hard Acceleration Threshold 3 Hard Acceleration Threshold 4	The defined threshold in unit g The defined threshold in unit g	Numeric Numeric	3	Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided)
Driver Profile / Parameter Driver Profile / Parameter	Hard Acceleration Threshold 5 Hard Deceleration Threshold 1 Hard Deceleration Threshold 2	The defined threshold in unit g The defined threshold in unit g The defined threshold in unit g	Numeric Numeric Numeric	3	Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided)
Driver Profile / Parameter Driver Profile / Parameter Driver Profile / Parameter	Hard Deceleration Threshold 3 Hard Deceleration Threshold 4 Hard Deceleration Threshold 5	The defined threshold in unit e The defined threshold in unit e The defined threshold in unit e	Numeric Numeric Numeric	3	Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided)
Driver Profile / Parameter Driver Profile / Parameter	Hard Cornering Threshold 1 Hard Cornering Threshold 2 Hard Cornering Threshold 3	The defined threshold in unit g The defined threshold in unit g The defined threshold in unit g	Numeric Numeric Numeric	3	Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided)
Driver Profile / Parameter	Hard Cornering Threshold 4 Hard Cornering Threshold 5	The defined threshold in unit g The defined threshold in unit g	Numeric Numeric	3	Mandatory (if corresponding history data provided) Mandatory (if corresponding history data provided)
